About This Book

About the Author

About the Cover

1. Your machine-learning rig

Chapter 1. A machine-learning odyssey

Chapter 2. TensorFlow essentials

2. Core learning algorithms

Chapter 3. Linear regression and beyond

Chapter 4. A gentle introduction to classification

Chapter 5. Automatically clustering data

Chapter 6. Hidden Markov models

3. The neural network paradigm

Chapter 7. A peek into autoencoders

Chapter 8. Reinforcement learning

Chapter 9. Convolutional neural networks

Chapter 10. Recurrent neural networks
Chapter 11. Sequence-to-sequence models for chatbots
Chapter 12. Utility landscape
